

LogiQuest®

Defense Logistics System

LogiQuest contains one of the most comprehensive collections of Parts and Logistics data available

LogiQuest aggregates parts and logistics information from many disparate government, military and commercial sources into a powerful, easy to use logistics information search and retrieval tool. There are 60 highly indexed searchable databases comprised of more than 120 individual data files. It provides access to information on over 15 million active and historical National Item Identification Numbers (NIIN) and Navy Item Control Numbers (NICN) and more than 150 million part number references in the Federal Supply Catalogue.
